

SHELTER INTERIORS

WHO WE ARE

At Shelter Interiors, design is our passion.

A full service design-firm, we take pride in curating spaces that reflect the tastes, interests and lifestyles of the clients we serve. From cozy textures and plush layers to clean lines and minimalist finishing, our tight-knit team brings global experience and in-depth knowledge of design principles to each new project.

Whether the job is modern or classic, an urban penthouse or a slopeside ski chalet, our goal is the same, to create a place worthy of calling 'home.'

The graphic pattern of the hand painted backsplash by Waterworks is the focal point of the comfortable Kitchen and Dining space, followed by light fixtures and bathroom accessories also by Waterworks, in the airy Master Bath of this design - build home located in Bozeman, MT.
